

READY2LOAD SEQUENCING SERVICES

Convenient Illumina sequencing of ready-to-load libraries (RTL)

SKIP THE PREP AND JUMP STRAIGHT TO SEQUENCING! WITH OUR READY-TO-LOAD SERVICE, YOU DELIVER YOUR PREPPED LIBRARIES—WE DELIVER HIGH-QUALITY DATA, FAST.

Speed

FAST RESULTS

Our large sequencing capacity and automated workflows ensure that you receive your results promptly.

Quality

HIGH QUALITY

Benefit from our vast experience and optimized use of Illumina flow cells.

Flexibility

FLEXIBLE RUN MODE

Diverse sequencing strategies including PE150, PE100, PE50 on NovaSeq X series flow cells as well as other customized strategies for projects requiring custom solutions.

- **Sorting by Illumina-compatible index reads at no additional costs**
- **Services are performed in ISO17025 certified labs in Europe**
- **Data transfer via secure FTP or upload to customer specified location upon request**
